Mai Ngọc Tú

FullStack Developer

Dob: 23/08/2002
Gender: Male
Phone: 0345919996
Email: maitu10e2@gmail.com
linkedin www.linkedin.com/in/ngọc-tú-mai-54b2ab34a
Address: 180 Phố Vọng, Thanh Xuân, Hà Nội

OBJECTIVE

With a solid foundation in web development and a passion for building web products, I am committed to continuous growth in this field.

- Short-term goal: Enhance my skills in developing high-performance modern web applications using cutting-edge technologies like Next.js (Frontend) and NestJS (Backend).
- Long-term goal: Become a professional Full-stack Developer capable of contributing to and scaling impactful products for the company.

EDUCATION

2020 - 2025	**Bachelor of Information Technology** FPT University Ha Noi ***GPA: 3.0***
08/2023 - 03/2024	**On Job Training Frontend Class** FPT Academy ***End class: 8.6***

CERTIFICATIONS

03/2025	**TOEIC IIG 710** **link**: https://drive.google.com/file/d/1xCvi7PwXAoSYEmn_RRMc2dWW4YSYKD1L/view?usp=sharing
12/2024	**Cousera certfication: UX/UI Design** **link:** https://coursera.org/share/880d25c75a70fd23c130ab5cb595a1dd
12/2024	**Cousera certfication: Project Management** **link:** https://coursera.org/share/8f488b9150749837f7073ded43aa5e39

SKILLS

IDE/ Programming Tool:	Cursor, Windsuft, VS Code, NetBeans, IntelliJ , Selenium IDE and Android Studio
Programming Language:	Java, JavaScript, TypeScript, PHP and SCSS
Front-end library, framework and UI components:	ReactJS, NextJS, Vue, TailwindCSS, Material UI, AntDesign, Shadcn UI...
Back-end framework:	ExpressJS, Laravel and SpringBoot Hibernate/JPA
Database and Cache	Neon, MongoDB, MicrosoftSQL, MySQL, PostgreSQL, MyAdminSQL and Redis
Mobile development:	React Native and Android Java
Other Tool:	Github, Gitlab, Jira, Jmeter, Jest and Docker decktop

Performance and quality testing	Google page speed insight and lighthouse

WORK EXPERIENCE

04/2025 - 11/2025

CenNext

A summary of all projects I contributed to or developed independently while working at the company.

Project 1: 2/6 Month Employee Evaluation

- **Team size:** 1
- **Role:** Full-Stack Developer
- **Description:** Build a page base on company intranet website for conducting 2/6 month employee performance reviews for HR, leader and employee to use.
- **Tech Stack:**
  + Frontend and backend: PHP 7.0 (Yii2 Framework) + Bootstrap 4
  + Database: phpMyAdmin

Project 2: Internal AI Chatbot Platform

- **Team size:** 2
- **Role:** Lead Frontend Developer and Database Contributor
- **Description:** Built a company-internal, proprietary AI chat platform with an interface similar to Grok, featuring a custom-trained model.
- **Tech Stack:**
  + Frontend: Nextjs 15 + shadcn UI (ui components)
  + Backend: Python
  + Social integration: Google SDK
  + Chat Api key: Gemini flash 2.5
  + Cache database: Redis
  + Performance and quality testing: Google page speed insight
  + Database: PostgreSQL

Project 3: Customer Portal

- **Team size:** 4
- **Role:** Lead Frontend Developer and Database Contributor
- **Description:** Developed a customer portal to display project progress and show general information to external partners and clients.
- **Tech Stack:**
  + Frontend: Nextjs 15 + shadcn UI and magic UI (ui components)
  + Backend: PHP 7.0 (Laravel and Yii2 Framework)
  + Cache database: Redis
  + Database: phpMyAdmin and PostgreSQL

Project 4: Internal HR/Admin Portal

- **Team size:** 1
- **Role:** Full-Stack Developer
- **Description:** Built a dedicated Admin Portal for internal HR and various team administrators.
- **Tech Stack:**
  + Frontend: Nextjs 16 + shadcn UI and magic UI (ui components)
  + Backend: PHP 7.0 (Yii2 Framework)
  + Database: phpMyAdmin

TEAM AND PERSONAL PROJECTS

10/2025 - 11/2025

Road to Master JS (A platform for reviewing theoretical concepts and solving JavaScript coding challenges directly on the web.)

Personal Project

Link Github: https://github.com/tumn2308/road-to-master-js

Link Website: https://road-to-master-js.vercel.app/

Short Summary: This project helps users review theoretical concepts, from fundamental to advanced, related to JavaScript, TypeScript, and ReactJS. Users can enhance their coding skills by selecting and solving various coding challenges directly on the platform, similar to the experience offered by platforms like **Codewars** or **LeetCode**

Tech Stack

- Languages: Typescript
- Libraries: ReactJS
- Runtime: NodeJS1
- Frameworks: Nextjs 15, Tailwind css
- UI: Shadcn UI and Magic UI
- Database: Neon + Drizzle ORM
- Tools: Postman and Google page speed insight (Performance Testing)
- Deployment: Vercel

08/2025 - 09/2025

MeetAI (AI Agent that can provide conversational coaching and support via a meeting room)

Personal Project

Link Github: https://github.com/MrFutureBoss/AI-Agent-Coach

Link Website: https://ai-agent-coach.vercel.app/

Short Summary: This project allows users to create a personalized AI coach. Users can then set up an online meeting room, invite friends, and select that custom AI to join the room for support. The platform includes additional features such as recording the meeting, saving the chat history between users and the AI, and a conversation summary function.

Tech Stack

- Languages: Typescript
- Libraries: ReactJS
- Runtime: NodeJS
- Chat API key: OpenAI
- Frameworks: Nextjs 15, Tailwind css
- UI: Shadcn UI and Magic UI
- Database: Neon + Drizzle ORM
- Social integration: Google and Github SDK + Better-Auth (auth provider)
- Tools: Postman and Google page speed insight (Performance Testing)
- Deployment: Vercel

09/2024 - 12/2024

EduStart (Graduation Project: Websystem for supporting and managing entrepreneurship courses)

Role: Project Manager, Developer and Tester

Collaboration: 5 members

Link Github: https://github.com/MrFutureBoss/EduStart

Project Contributions

- As a Project Manager (Graduation Project): Managed task delegation, supported team members, and ensured project progress.
- As a Programmer: Contributed to both Backend and Frontend development and analyzed project requirements and proposed suitable technical solutions.
- As a Tester: Created test plans and performed Unit Testing and UI Testing.
- Main Developer Role: Actively participated in development, contributing approximately 40% of the project's implementation.

Tech Stack

- Languages: JavaScript, HTML5, CSS3
- Libraries: ReactJS
- Runtime: NodeJS1
- Frameworks + Library + UI components: Ant Design, Material UI, Socket.IO, React DnD and ExpressJS, ...
- Database: MongoDB
- Tools: Postman, Cloudinary, Jest (Unit Testing) and Selenium IDE (UI Testing)
- Deployment: Vercel(FE), Render(BE) and MongoAtlas(DB)
